

IMPORTANT NOTICE FOR ALL TOWN OF CHEEKTOWAGA RESIDENTS

The Town of Cheektowaga Highway Department is **NO LONGER AN ELECTRONIC (E WASTE) DROP OFF SITE**. The Highway Department has been an EWaste drop off site for a couple of years now. Mark Wegner, the Town of Cheektowaga Highway Superintendent was glad to create the program for the Town residents because they had no other alternative to dispose of their EWaste that has been piling up for years in basements and garages.

According to Wegner, “when we first started the program, we had the resources available to create an efficient program for the Town and Town residents. Unfortunately, the industry cost and regulations have changed making an EWaste drop site unproductive and costly for our department. Effective immediately, we will no longer handle any disposal of electronics of any type.”

Currently there are no other EWaste solutions offered by the Town but the Town Board is looking into other alternatives. If you need to dispose of electronics, Wegner suggests following the local news and radio as typically there are scheduled monthly EWaste drop sites in WNY open to the public.
